Version: 1.1

## GC B722

**GC B722** is a synergistic blend of two hindered amine light stabilizers. **GC B722** has low volatility and allows excellent light stability with good mechanical properties retention. **GC B722** contributes to the antioxidants properties being an effective stabilization system for the polymer against degradation through UV radiation and long-term heat exposure. **GC B722** is a versatile UV stabilizer for thin and thick sections and delivers excellent cost /performance benefits. Recommended dosage: 0.1-1.0

---

### PHYSICAL-CHEMICAL PROPERTIES

Appearance	Powder
Color	Off-white/Pale yellow
UV LS 622 content, %	33±2
UV LS 770 content, %	66±2

---

**HANDLING AND STORAGE:** The processing and use of GC B722 requires adequate technical and professional knowledge. Please consult safety data sheet for further handling, storage and toxicity information.  
GC B722 has to be stored in tightly sealed original container in a cool and well-ventilated area, away from direct sunlight.

**PACKAGING:** Standard packaging size of GC B722 is in 25 Kg plastic bags.
